Automatic shutdown timer function

Seven-day timer function

Remote control

Ecodesign Compliant energy saving features

13 fuel bed lighting colours plus spectrum mode

Various flame combinations of yellow and orange

Atmos 195R

# Authentic Glowing Logs

Atmos electric fires feature realistic faux logs sat upon a bed of blackened glass media, mimicking the look of a real fire. For added authenticity, sections of the logs glow alongside the Atmos' flame and fuel bed to recreate the aesthetic of a real log fire.

## Ember bed up-lighting

The Atmos' lighting system brings the fuel bed to life, illuminating the realistic log and ember effects from below for a lifelike display. Choose from 13 varied colours or the ever-changing spectrum mode for your fuel bed lighting, providing everything from a vibrant hue to an authentic glow. Five brightness settings allow for a bright glow, subdued flicker, and everything in between.

## Realistic flame effects

Enjoy five flame colour variations and five brightness settings, letting you experiment to find the perfect flame for your mood.

## Enjoy with or without the heat

Want to enjoy your fire for its ambience alone? The Atmos provides the option to turn on or off the heat function independently of the flames and ember bed lighting, so you can enjoy its stunning effects and ambience all year round.

## Ecodesign Compliant

Featuring intelligent energy saving features such as open window detection, the Atmos is fully compliant with the latest Ecodesign energy standard for electric appliances.

**ECODesign Compliant**

Atmos 195R

## Slim Design. Simple Install.

With its ultra-slim 140mm depth, the Atmos is ideal for media walls or fireplace suites where space is limited. Its integrated frame neatly hides any plastering imperfections around the opening, making for an easy slot-in installation and a clean finish.
## Quick & Easy Log Placement

Markers on the fire's fuel bed aid in achieving the optimum placement of each log-effect piece, resulting in a picture-perfect display. Alternatively, mix it up to create your own bespoke arrangement.

## Plug and Play

Once installed, the Atmos is as simple as plugging in and powering on, before sitting back and enjoying the enhanced atmosphere it provides from the press of a button.

# Complete Control

## Adjustable Heat: High, Low, or Off
Low and high heat modes allow you to achieve the perfect intensity, or choose no heat at all to enjoy the Atmos purely for its realistic flame and ember effects.

## Fuel Bed Lighting Colours
Fuel bed lighting can be set to one of 13 distinct colours, offering options ranging from vivid tones to a natural, warm glow.  Alternatively, opt for the spectrum mode to experience them all.

## Thermostatic Temperature Control
Select from 16°C to 28°C for your ideal room temperature and the Atmos will adjust its heater to reach your chosen temperature in the most economical way.

## Open Window Detection
Open Window Detection is an innovative eco feature that pauses heat output if the fire detects a rapid drop in room temperature caused by an open window. The heat function will resume once the temperature rises, or from pressing the remote control.

## Automatic Shutdown Timer
Using the handy timer function of the remote handset, set your Atmos fire to turn itself off after a set period of time. Simply press the button to increase the timer in increments from half an hour to 9 hours.
## Adjustable Brightness
With five brightness levels on both the fuel bed and the flame choice, you can fine tune the fireside ambience to suit your mood.
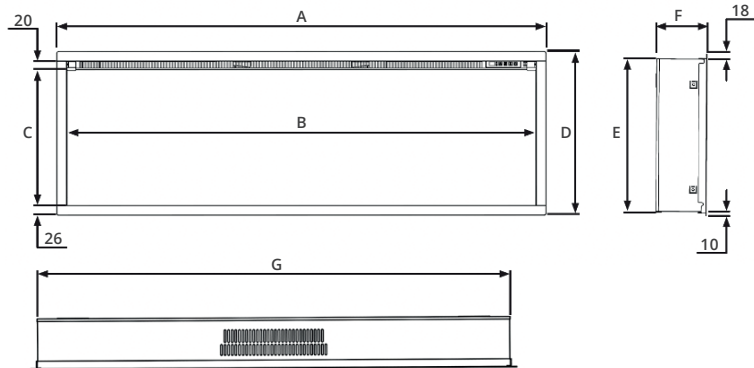

## Flame Choice
Experience a dynamic display with five flame effects that blend yellow, amber, and orange into one harmonious glow, with each option subtly changing the balance of colour.

## Seven-day On/Off Timer
Using the remote control, the Atmos can be set up to automatically turn the heater on and off over a seven-day period.

# Technical Information

## Dimensions (mm)

| Model | Product Code | A | B | C | D | E | F | G |
|-------|-------------|------|------|-----|-----|-----|-----|------|
| Atmos 105R | 232-009 | 1050 | 998 | 378 | 450 | 422 | 140 | 1013 |
| Atmos 135R | 232-014 | 1350 | 1298 | 378 | 450 | 422 | 140 | 1313 |
| Atmos 165R | 232-022 | 1650 | 1598 | 378 | 450 | 422 | 140 | 1633 |
| Atmos 195R | 232-031 | 1950 | 1898 | 378 | 450 | 422 | 140 | 1933 |

## TV size guide

This guide provides you with the recommended TV sizes for each Atmos model, helping you select an ideal match.

| Model | Suggested TV Sizes* |
|-------|--------------------|
| Atmos 105R | 43" - 55" |
| Atmos 135R | 50" - 65" |
| Atmos 165R | 55" - 65" |
| Atmos 195R | 65" - 75" |

*\* TV sizes refer to the standard diagonal screen dimensions that TV manufacturers refer to when describing the size of their products, If sizing your existing flat screen TV, measure diagonally from the top left of the screen to the bottom right to find the TV's advertised size. We also recommend measuring the width and height of your TV if lining it up with the Atmos below.*
