BIO ETHANOL RANGE

www.henleystoves.co.uk

sales@henleystoves.com

Every home deserves a Henley, and our new range of Bio ethanol fires is the perfect option. Henley Bio ethanol fires are perfect as it adds a lavish look to your room. With its simplistic flueless installation there is no need for any chimney or flue pipes. It is the cleanest and one of the most environmentally friendly forms of heating with no soot, dirt or ash.

What are Bioethanol Fires?

It is a fire fuelled by an environmentally friendly and sustainable liquid fuel that is created from plant extracts. There is no chimney or flue system required as this fire does not produce any smoke, ash or dust so they are much cleaner and more efficient with no loss of heat. Bio ethanol fuelled fireplaces are a perfect alternative to a conventional gas, wood or multifuel fire.

What are The Benefits?

- Ease of Installation
- No Chimney or flue system required
- 100% Energy Efficiency
- Environmentally Friendly
- Easy to Use & Maintain
- Focal point to your room

Ensure your bio-ethanol fire is used in a well ventilated space. Always allow 20 minutes cool down before adding more bioethanol fuel.
