# Make a statement

Our Avanti Gas fire collection epitomises luxury with its captivating flames and sleek, contemporary design. Whether you choose the Avanti 65 or the larger Avanti 85, each fire delivers an exceptional statement, with both available in both conventional and balanced flue versions. What's more, complete the aesthetic with a choice of stylish framing options to suit your style.

The Avanti Gas burner system creates a glowing ember-effect bed and wrap-around, rolling flames placed in thoughtful points around the log-effects, mirroring a traditional woodburning fire. This is enhanced by our alluring EchoFlame™ Black Glass Lining, a reflective backdrop creating mesmerising layered flame visuals. Combining these features with an ultra-realistic, hand painted Split Oak log-effect, these premium fires drive at picture-perfect quality.

### Installation and Safety

Onyx gas stoves must be fitted by a qualified gas installer (Gas Safe registered in the United Kingdom or RGI in the Republic of Ireland). Please note that all parts of these stoves become extremely hot during operation and can result in serious injury and burns if touched. It is therefore recommended that a fireguard complying with BS 8423 (latest edition) is used in the presence of young children, the elderly or infirm.
